## TO ALL OUR CUSTOMERS:

We want to thank you for your fine orders this past year, and we hope the bulbs you received were satisfactory. Our whole aim is to please. We practice the theory that the CUSTOMER IS ALWAYS RIGHT. At present we are busy cleaning a fine crop of bulbs, the season has been very hot and dry, but with irrigation system we apply water as needed, which keeps the bulbs growing, and keeps them from stunting and gives our customers choice bulbs.

This is our second year of getting out a price list and will admit it is quite complicated the way some of the growers do it with all the posting of the prices, then comes the discounts — so much for three months on a graduated scale. Well, it is Greek to me so I am going to make all my customers an offer of 10% reduction on all orders of \$5.00 or more, cash in full, post marked on or before January 20, 1953. This applies to any varieties listed in my catalog.

Get your order in early as some of the newer varieties won't last long. So don't be disappointed.

HARVEY HALLET

P.S.: Make out your order on the blank form, add it up. If total is more than \$5.00 deduct 10%.
